

Norrod Builders

Norrod Builders, Inc. has been building quality homes around the Upper Cumberland region for over 30 years. Jerry Norrod, owner and president, started the building business along with a partner as Norrod and Savage in 1976. They began by building 900 – 1,500 sq. ft. homes through the Farmers Home Administration. In addition several remodeling jobs were done through the HUD program. In 1978, the company obtained their Tennessee Contractor License and hired one employee. Most of the work was done by the owners and this employee with some of the work hired out to subcontractors. From the late eighties until around 1992 the floor plans grew from around 1,500 sq. ft. to 3,000 sq. ft. and a few more employees were hired. The partner left the business around that time and the company was incorporated into Norrod Builders, Inc. The residential, vacation and lake home markets continued to grow, as did their reputation for quality workmanship and attention to detail among folks retiring to the area and building their dream home. Home sizes continued to increase - ranging anywhere from 4,000 sq. ft. to 15,000 sq. ft. With this growth, their Tennessee Contractors license was increased to an unlimited monetary basis. Norrod Builders, Inc. under the leadership of Jerry Norrod continues to build exquisite top quality homes around Dale Hollow Lake and the Upper Cumberland region for many families retiring and/or relocating to the area. There is no job too big or too small for Norrod Builders, Inc. They are available for any size project you might have in mind – residential or commercial. What sets them apart is their honesty, quality construction and attention to detail, exceptional service and their willingness to listen to and work with the client to finish the job on time. Jerry loves

to drive his antique cars with his lovely bride, Judy, alongside. One of his favorite autos is a “hot” red 1957 Thunderbird that is in impeccable condition. Often times they will take a road trip to view the beautiful countryside around the region and visit some of the homes built by Norrod Builders, Inc. Jerry and Judy have made many lasting friendships through the years with the people they have worked for. They are very appreciative of all the fine people that have placed their confidence in them, allowing them to be part of their life. Judy has been with the business since the very beginning. Today, she counts herself as one of the fifteen employees. They are both proud of each employee that they have and are grateful for the skills, abilities, and dedication that each shows in the success of a completed job. The satisfaction from their clients resonates in their team. The first employee that they hired in 1978 is still working with the company today. Frequently beside a successful businessman stands a strong woman. Jerry Norrod proudly talks about his wife, Judy. She is his right hand person, soul mate and helpmate. They both believe that they owe everything to their Lord and Savior, Jesus Christ, who without Him and His blessings, they could do nothing. Contact Norrod Builders, Inc. today if you are considering building a vacation home on Dale Hollow Lake, relocating to the Upper Cumberland region in Tennessee or have a new construction project of any size. Norrod Builders, Inc. can be contacted at 931-537-6563 or visit their offices at 2525 Hwy. 111 North in Algood, TN (between Livingston and Cookeville) and have a Coke with Jerry and Judy.
